

**BESIX BALLAST NEDAM (BBN) LIMITED JOB ADVERTISEMENT – QC Civil Inspector**

BESIX Ballast Nedam (BBN) Limited, the CONTRACTOR for the Engineering, procurement and Construction of the Jetty and Load Out Facilities in the Tanga Bay for the East African Crude Oil Pipeline (EACOP) Project, invites application for **QC Civil Inspector**.

Project	EACOP – Jetty & Loading Out Facility
Employer	BESIX Ballast Nedam Limited (BBN)
Work Location	Tanga Port
Position Title	QC Civil Inspector
Reports To:	BBN Ltd. QAQC Manager
Employment Duration	April 2023 to August 2024
Job Type	Full Time

**Purpose and scope of assignment.**

Our company is seeking a highly experienced and competent QC Civil Inspector to oversee all quality control activities related to concrete works for various civil engineering projects. The ideal candidate will have a strong background in concrete quality control, including concrete material testing, concrete mix design and trial mix, concrete casting, mass concrete, and precast works. The successful candidate will be responsible for ensuring that all concrete works are performed to the highest standard of quality, in accordance with project specifications and industry standards.

**Job responsibilities**

- Conduct inspections of concrete works, ensuring compliance with project specifications and industry standards.
- Monitor concrete material tests in the lab, including slump, compressive strength, density, and other relevant tests.
- Monitor concrete mix design and trial mix tests, and review and approve concrete mix designs submitted by contractors.
- Monitor concrete casting and precast activities, ensuring compliance with project specifications and industry standards.
- Conduct regular inspections of concrete works, ensuring compliance with quality requirements and identifying any defects or issues that require corrective action.
- Coordinate with project engineers and contractors to ensure that all QC activities are properly documented and communicated.
- Participate in project meetings and provide regular reports to project management on QC activities and performance.
- Ensure compliance with all applicable health, safety, and environmental regulations.

**Job Qualification, Experience and Skills**

Applicants should demonstrate the following:

- Tanzanian citizenship
- A technical college degree or bachelor's degree in civil work.
- 5 years' experience in QC roles for civil engineering projects, with a focus on concrete works.
- Strong knowledge of concrete quality control, including material testing, mix design, and casting techniques.
- Knowledge of relevant industry standards and regulations related to concrete works.
- Excellent communication skills, with the ability to work effectively with project engineers, contractors, and other stakeholders.
- Ability to work under pressure and meet tight deadlines.
- Strong problem-solving and analytical skills.
- Ability to work independently and as part of a team.
- Knowledge of PDF, Microsoft Office Word, and Excel software's.
- Excellent knowledge of written and spoken English is required.
- Rigorous and detail oriented
- Ability to adhere to set procedures and policies.
- Experience with the Common Data Environment "Oracle Aconex" is a plus.
- Time-oriented approach to handling queries and tasks
- Work experience with international contractor.
